

TCM Forklift Parts

TCM Forklift Part - In the international business of material handling, forklifts play an important part for transporting industrial goods. Originally innovated as industrial vehicles in the 1930s in America, lift trucks gained popularity after WWII during the 1940s. Becoming an efficient and reliable means to material handling solutions, the need and practicality of these equipment spread worldwide.

Originally established as Toyo Carrier Manufacturing Company Limited, in 1949, the business was later renamed Toyo Umpanki Co. prior to becoming known as the TCM Corporation. Started by Mr. N. Niwa manufactured Japan's very first lift truck. Throughout the years, TCM forklifts have become a global leader in forklift manufacturing and have built a solid reputation with the trade. TCM began building lift truck manufacturing sites outside of Japan during the 1980s and is presently engaged in forklift manufacturer at three foreign factories in the United States, Europe and China.

With more than fifty years of accumulated technology and expertise, TCM has been proudly making several models of industrial forklifts, making their models recognizable all over the world. With a strong and energetic workers, TCM has been able to constantly work towards becoming a future leading material handling business.
