

Concrete Hopper

Concrete Hopper - This attachment is a self-dumping hopper that automatically starts to dump as soon as bumper release touches the side of a dumpster. After dumping is finished, the hopper returns to a locked and upright position. This particular piece of machinery is likewise accessible with a cable that enables operation from the seat of the lift truck so as to have the option of manually dumping the hopper. There is a locking chain provided so as to lock the hopper to the tine truck. This product is constructed with consistent and reliable robotic welds for utmost strength. The forklift dumping hopper even has a blue powder coat finish to be able to maintain durability.
