

Meritor Parts

Meritor Parts - The Meritor Company is a premier global dealer built upon 100 years of tradition of service and quality. Meritor focuses on integrated systems together with different modules and parts to the original machine makers and aftermarket equipment within the transportation and industrial trades.

Meritor values the wishes of their clients to ensure their success while priding itself in the company's unique energy and believes this output of energy to be their aggressive advantage in their global operations. Meritor starts with a philosophy which values diversity of people and their broad thought processes. Operating in 19 nations and employing more than 11,200 individuals, Meritor encourages collaboration and innovation amongst a team of knowledgeable professionals.

Meritor strongly believes in only employing future focused workers. These top-caliber people could rapidly adapt to changing environments and freely demonstrate the level of commitment and performance needed so as to get results for the competitive market environment. The company empowers their teams to make sound business decisions so as to improve the overall success of the company. In return, Meritor provides all their employees different opportunities for professional and personal growth.

The Advanced Engineering team is on the forefront of components and system engineering. This includes axles, drivelines, braking and suspension systems designed for medium and heavy duty trucks, military vehicles, trailers, off-highway vehicles and buses. The Meritor Advanced Engineering team is developing. They started a new technical center in Bangalore, India in September 2009 in order to lead their advanced product development initiatives which represent the whole Asia Pacific region. This particular team is likewise responsible for supporting the requirements of all their global engineering workers.

Meritor's dynamic and customer focused Quality team is committed to ensuring optimum processing at their aftermarket distribution facilities and production plants that are situated around the globe in 19 countries and in 5 different continents.

The supplier development network is particularly located in order to support new business development. Regional teams are supported by international quality systems, centralized specialties and initiatives in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program promotes a fact-based, data-driven approach to decision making in each and every aspect of the trade. The DFSS or Design for Six Sigma ensures product reliability in each and every region. The team is likewise included transactional Green Belts who use Six Sigma tools to business processes and apply lean techniques.
